# BUSINESS: SUPPLY CHAIN MANAGEMENT CONCENTRATION

## SUPPLY CHAIN MANAGEMENT

Logistics Management has become an important driver of the economic growth of Middle Tennessee. The Associate of Applied Science (A.A.S.) degree in Business with a Supply Chain Management concentration at Motlow State Community College provides you with the skills needed for jobs in high-demand supply chain and logistic careers.

Motlow students can earn a certificate or a two-year degree. As the process of supply chain management becomes more sophisticated and dependent on skilled employees, leaders, teams, and emerging technology, these courses of study will assist you toward a rewarding career.

**Supply Chain Management Certificate:** The Supply Chain Management certificate program prepares you for a successful career in high-demand fields. Earn a certificate after completing 18 credit hours:

- Keyboarding/Formatting I
- Introduction to Business
- Computer Applications
- Introduction to Logistics and Supply Chain Management
- Transportation
- Sourcing and Procurement

## Careers in Supply Chain Management:

- Key Account Manager (\$27-53k/year)
- Operations Manager (\$50-101k/year)
- Account Executive (\$28-54k/year)
- Purchasing Manager (\$47-84k/year)
- Inventory Control Manager (\$45-83k/year)
- Logistics Analyst (\$29-54k/year)
- Logistics Director (\$96-145k/year)

*(Occupational Outlook Handbook)*

## A.A.S. in Business: Supply Chain Management:

The A.A.S. in Business, Supply Chain Management Concentration, prepares you for employment in the workforce after completing the two-year program. The degree equips students with the skills needed for jobs in high-demand supply chain and logistic careers. First take the basic courses in business and accounting to achieve a solid foundation in business practices; then take the required supply chain management courses.
